RESEARCH & PUBLICATIONS

Masiliūnienė, A.
(2025)

[ORCID](#)

Article: "Combining the Roles of Translator and Project Manager in A Decentralised Network: A Competency Framework", in Journal: Andragogy Adult Education and Social Marketing

- independent research, data analysis, and clear representation of findings
- ability to structure insights and communicate findings effectively

PROJECTS

A Terapija

Designed and developed a role-based digital wellbeing platform for clients, therapists, and administrators.

- Led product discovery through stakeholder interviews and requirement workshops.
- Conducted UX research and developed personas, user journeys, and information architecture.
- Designed responsive user interfaces and a reusable design system.
- Built the application using Django, HTML, CSS, and JavaScript.
- Implemented role-based experiences for clients, therapists, and administrators.
- Collaborated closely with the practice owner to validate and refine product decisions throughout development.

SKILLS

- **Research:** Stakeholder interviews, User research, Personas, User journeys, Information architecture
- **Design:** Design systems, Responsive UI, Wireframing, Prototyping, Accessibility
- **Development:** Python, Django, HTML, CSS, JavaScript, SQLite
- **Tools:** Figma, Miro, Git, GitHub, PyCharm
- **Core strengths:** Ownership, Systems thinking, Analytical thinking, Stakeholder collaboration, Curiosity, Responsibility

LANGUAGE

- Lithuanian - native
- Russian - fluent
- English - B2 (active)
- German - B2 (passive)
